## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 67-76 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The disclosed invention is solely directed towards musical compositions and their classification, searching and retrieval and does not teach anything about the classification, search, or retrieval of the types of objects recited in these claims.

Applicant argues that this rejection is improper, because in the "Summary of the Invention" Applicant merely suggests a lists of different types of objects for which Applicant's invention "for which the described method may be applied" and states that this alone meets the requirements for 35 USC 112. Applicant further quotes a CAFC decision which restates 35 USC 112, first paragraph. These have been considered but are not convincing. In order for the description of Applicant's invention to have been enabling, for example, for the classification, search, and retrieval of perfume, the Specification and Drawings would have to have depicted e.g. various attributes of

perfume analogous to those which Applicant has depicted of music; e.g. tempo, weight, intensity, rhythm, emotion. None of these attributes of any of the objects listed in these claims are described in any way. The Examiner disagrees with the mere assertion that this conveys the invention to one of ordinary skill in the art.

Applicant's arguments have been considered, but are not deemed persuasive.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-13 are rejected under 35 U.S.C. 102(e) as being fully met by Cluts.

Cluts discloses a system and method for selecting music on the basis of subjective content which comprises a "more like" style classification value, as well as a "more like" classification value based on tempo, rhythm etc (Col. 19, lines 54-65).

Regarding Applicant's arguments, Cluts teaches "a plurality of classification values, each distinguishing a particular subjective feature of musical compositions." See Col. 19, lines 16-19 ("editorial work required to classify"); Col. 20, lines 41-44.

Claims 14-66 are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
